

Welcome to the 2021-2022 school year at VAA

In my classes I will integrate school gardening, outdoor education and many hands on practical STEM projects to prepare students for a life of service to God and Humanity

Students will need the following supplies.

Specific for my class

- School shared gardening boots are available for students but if parents or students want their own then they should be purchased
- college ruled journal (for their nature journal and agriscience journal)

General (can be used in multiple classes and duplicates for my classes are not needed)

- three ringed binder with dividers
- paper with three holes that fits into the binder
- pencils
- colored pencils

Homeroom (If students are in my home room they will each need to bring.)

- box of tissue paper
- roll of paper towels
- plates
- forks
- spoons

Sincerely,

Philip Wiygul
